**Proceedings of The CEReS International Symposium  
on Remote Sensing**

**"Monitoring of Environmental Change in Asia"**

**December 16-17, 2003  
Center for Environmental Remote Sensing,  
Chiba University, Japan**

**(Editors)  
T. Ishiyama, C. Hongo and R. Tateishi**

**Proceedings of The CEReS International Symposium on Remote Sensing**  
**"Monitoring of Environmental Change in Asia"**

**Contents**

**Keynote**

Supporting multi-national environmental conventions and terrestrial carbon cycle science by remote sensing

*A. Rosenqvist, M. Shimada, T. Igarashi, M. Watanabe, T. Tadono and H. Yamamoto* ----- 1

**Land Cover Change**

Global land cover mapping and change monitoring

*R. Tateishi* ----- 11

Land cover classification in Asia using near and short wave infrared bands of SPOT / VGT data

*H. P. Sato, R. Tateishi and L. Lai* ----- 15

Ground surface conditions of oases surrounding the Taklimakan Desert

*T. Ishiyama, S. Fujikawa, K. Ohkawa and S. Tanaka* ----- 19

Influence of land use and land cover change due to urbanization on hydrological environments: a case study of Shijiazhuang, China

*Y. Shen, J. Xiao, A. Kondoh and R. Tateishi* ----- 25

**Terrestrial Ecosystem Dynamics**

Crop production monitoring by a photosynthesis-based index using meteorological data and NDVI

*D. Kaneko* ----- 29

Livestock mapping in Mongolia using satellite and statistical data

*R. Tsolmon, R. Tateishi and Ts. Enkhzaya* ----- 37

Synergetic use of SPOT/Landsat and IKONOS data for terrace rice fields monitoring

*N. Mino* ----- 39

Development of forest cover density mapping methodology

*A. Rikimaru and R. Tateishi* ----- 41

Spectral observations for estimating the yield and quality of rice, and studies on optimal amount of fertilizer at ear forming stage of rice

*K. Kanemoto* ----- 51

Development of new method for field survey of stand parameters on mangrove forest -A kind of remote sensing in the forest-	
<i>K. Sato and R. Tateishi</i> -----	55

## **Water and Carbon in Biosphere**

Role of soil water of the subsurface water resources in the semi-arid region -Some results in Mongolia-

<i>I. Kaihotsu, T. Yamanaka, M. Hirata, K. Muramatsu, K. Oishi, Y. Xiong, A. Kondoh and T. Koike</i> -----	61
--	----

A Study of water cycle and water resources security using isotopic and remote sensing technologies in North China plain

<i>X. Song, J. Xia and J. Yu</i> -----	67
--	----

An algorithm for estimating regional evaporation and transpiration using remote sensing data

<i>Y. Shen, A. Kondoh, C. Tang, Y. Zhang and M. Aslam M.A</i> -----	71
---	----

Seasonal variations in surface moisture status over east China by AVHRR

<i>A. Higuchi and A. Kondoh</i> -----	83
---------------------------------------	----

Distribution, biodiversity and long-term changes of seagrass beds in Okinawa Island : Effects of terrestrial ecosystems

<i>C. Ishibashi, A. Kondoh and M. Nakaoka</i> -----	87
---	----

## **Ocean Primary Productivity**

PAR dependent time and depth resolved primary productivity model

<i>I. Asanuma</i> -----	91
-------------------------	----

Cross-validation of ocean color and sea surface spectral reflectance in the western equatorial Pacific Ocean

<i>K. Kozai</i> -----	99
-----------------------	----

Seasonal variation in primary production in the region off eastern Hokkaido, Japan

<i>H. Kasai</i> -----	103
-----------------------	-----

## **Sea Ice and Snow Cover**

Retrieval of snow physical parameters with consideration of underlying vegetation

<i>T. Aoki and M. Hori</i> -----	105
----------------------------------	-----

Antarctic remote ice sensing experiments(ARISE) with Australian national Antarctic Research Expedition in 2003

<i>A. Muto, F. Nishio, H. Enomoto, K. Tateyama, T. Tamura, S. Ushio and R. Massom</i> -----	107
---	-----

Study on detecting thin sea ice area from satellite images <i>K. Cho, Y. Yano, M. Sasagawa, N. Takeda, Y. Obora and H. Shimoda</i>	113
A study on sea ice variation in Lützow-Holmbukta, Antarctica, with satellite data <i>S. Ushio, T. Furukawa and F. Nishio</i>	117
Observation of ice sheet and glacier movement in the Antarctica by JERS-1 SAR interferometry <i>H. Kimura, T. Kanamori, H. Wakabayashi and F. Nishio</i>	119
<b>Earth Radiation Budget</b>	
TOA and Surface Radiation Budget from Satellites: Current developments and perspectives <i>R. Hollmann</i>	123
Latitudinal distribution of solar radiation under clear and cloudy conditions on the territory of Mongolia <i>T. Nas-Urt</i>	129
Validation experiment for satellite remote sensing and numerical models of low-level clouds: Shipboard observation of YAMASE clouds <i>S. Asano, M. Kojima, Y. Yoshida and T. Takamura</i>	135
Atmospheric correction of satellite data over Chiba area <i>H. Kuze, M. Minomura, Y. Furusawa, Y. Todate and N. Takeuchi</i>	139
Retrieval of precipitable water over land using near infrared satellite remote sensing data <i>M. Kuji and A. Uchiyama</i>	145
<b>Atmospheric Gases</b>	
Aerosol pollution of the atmosphere and its sources features in Mongolian <i>T. Nas-Urt and T. Takamura</i>	153
Lidar observations of Asian dust: Hefei, 1998 to 2003 <i>J. Zhou, D. Liu, G. Yu, F. Qi and A. Fan</i>	161
Retrieval of aerosol optical parameters from satellite image data over land <i>Y. Kawata, H. Fukui and K. Takemata</i>	165
Observation of dust, smoke, and urban aerosols with multi-wavelength Raman lidar in Tokyo <i>T. Murayama and K. Wada</i>	169
Retrieval of aerosol optical thickness from the relation between satellite imagery and ground data over farmland in Okhotsk area <i>K. Asakuma and H. Ito</i>	175

A study on quantitative analyses of aerosol optical properties based on lidar measurements <i>M. Yabuki, M. Shiobara, H. Kuze, and N. Takeuchi</i> .....	179
---	-----

Analysis of convective activity over the South Asia using geostational satellites <i>N. Yamazaki and K. Takahashi</i> .....	183
--	-----

Ground and satellite monitoring of volcanic aerosols in visible and infrared bands <i>K. Kinoshita, C. Kanagaki, A. Minaka, S. Tsuchida, T. Matsui, A. Tupper, H. Yakiwara and N. Iino</i> .....	187
---	-----

Comparison between monthly mean precipitation as estimated from TRMM precipitation radar observations and from rain gauge data <i>N. Iwasaka and M. Sato</i> .....	197
---	-----

Relation between the automatic alignment PAL lidar data and air pollution monitoring <i>S. Naito, J. Okazaki, A. Someya, N. Lagrosas, Y. Yoshii, H. Kuze and N. Takeuchi</i> .....	207
---	-----

Performance of the developed 95GHz FM-CW cloud profiling radar <i>T. Takano, Y. Suga, K. Akita, Y. Kawamura, H. Kubo, H. Kumagai, T. Takamura, Y. Nakanish and T. Nakajima</i> .....	213
---	-----

## **Observation and Data Archive System for RS**

An attempt to detect earthquake-related Ionospheric disturbances with the use of GPS data <i>K. Hattori, T. Akasaka, M. Kamogawa and N. Isezaki</i> .....	221
--	-----

Remote sensing, GIS and public health <i>H. Sugimori</i> .....	225
---	-----

A simplifying method for the transmittance calculation based on a Fourier-transformed Voigt function considering the instrument function <i>H. Kobayashi and A. Shimota</i> .....	229
--	-----

Development of the satellite image database (SIDaB) for agriculture, forestry and fisheries, and its applications <i>G. Saito, S. Ogawa, I. Nagatani, N. Nishida, N. Ishitsuka, H. Sawada, K. Segawa and X. Song</i> .....	233
---	-----

Development and operation of interoperable system for earth observation satellite image and spatial data in Asia <i>S. Kawahito, A. Kondoh, O. Ochiai, R. Tateishi and T. Sekiya</i> .....	237
---	-----
