

**Proceedings of  
The International Symposium  
on  
"The Role of Remote Sensing for  
The Environmental Issues  
in Arid and Semi-Arid Regions"**

**January 29-31, 1997**

**Center for Environmental Remote Sensing,  
Chiba University, Japan**

**CEReS**

**Edited by Shizuo Shindo and Akihiko Kondoh**

**Published by**

Center for Environmental Remote Sensing(CEReS), Chiba University

## CONTENTS

|   |    |
|---|----|
| Application of a high resolution vegetation index for estimating percent cover, leaf area index, and evapotranspiration in arid environments<br><i>Christopher D. Elvidge</i> ..... | 1  |
| Environmental monitoring and natural resource management in Indian arid region using space informatics<br><i>R.B. Singh</i> .....   | 9  |
| Use of remote sensing for assessment and mapping desertification on a regional level<br><i>Nikolai Kharin</i> .....   | 23 |
| Testing of instant aero survey<br><i>Yoshiaki Honda and Koji Kajiwara</i> .....   | 29 |
| Review of wildfire observation in Mongolia during April and May of 1996 with data from DMPS Operational Linescan System<br><i>Christopher D. Elvidge</i> .....                      | 33 |
| Archeological site mapping and the image processing in the semi-arid Mongolian grassland<br><i>Isao Akojima</i> .....   | 41 |
| Seasonal and diurnal changes of atmosphere-land interaction over Mongolia<br><i>Shin Miyazaki, Tstsuzo Yasunari and Adyasuren Tsohiogiin</i> .....                                  | 49 |
| Investigation of hydrological change in closed lake of arid and semi-arid regions<br><i>Yasunori Nakayama, Sotaro Tanaka, Toshiro Sugimura, Kunihiko Endo and Yuzou Suga</i> .....  | 57 |
| Several landscape ecological concepts on the Aral Sea Crisis revealed by remote sensing<br><i>Yukihiro Morimoto, Atsuo Morimura and Natalia Ogar</i> .....                          | 65 |
| Monitoring reforestation in Northeast Thailand using the NETVIS<br><i>Yoshikatsu Nagata, Yasuyuki Kono, Shinya Takeda and Kengo Yoshida</i> .....                                   | 71 |
| Human dimensions in the oases in the arid regions in China<br><i>Masatoshi Yoshino</i> .....  | 75 |
| Assessing desertification in arid Australia using satellite data<br><i>Gary Bardin and Vanessa Chewings</i> .....   | 81 |
| Dynamic monitoring to changes of land utilization and land covering in Xinjiang<br><i>Han Delin</i> .....   | 89 |
| Remote sensing of coastlines in semi-arid environment in Southern Arabian Gulf<br><i>A.S. Alsharhan</i> .....   | 93 |
| Landscape structure and dynamics of the Mu-US Sands, China<br><i>Tatsuaki Kobayashi</i> .....   | 97 |

|  |     |
|--|-----|
| Geology, topography and soils in Naiman, Inner Mongolia, China<br><i>Yasuhito Shirato, Ichiro Taniyama, Zhang Tonghui and Zhao Halin</i> .....   | 103 |
| Vegetation distribution in Naiman, Inner Mongolia, China<br><i>Toshiya Ohkuro, Masayuki Nemoto, Shenggong Li and Halin Zhao</i> .....  | 107 |
| A monitoring method of desertification in Naiman, Inner Mongolia, China<br><i>Toshiaki Imagawa, Michikazu Fukuhara, Wang Tao and Zhu Zhenda</i> .....  | 111 |
| Formation of the dry surface layer and its effect on bare soil evaporation:<br>field observation and numerical experiments<br><i>Tsutomu Yamanaka, Atsushi Takeda and Jun Shimada</i> .....        | 117 |
| A rational parameterization of the soil-surface evaporation for estimating the rate<br>in arid regions by remote sensing<br><i>Wenjun He and Tetsuo Kobayashi</i> .....                            | 123 |
| Surface flux measurements at desert and oasis in HEIFE Project<br><i>Osamu Tsukamoto, Ken Sahashi, Jiemin Wang and Yasushi Mitsuta</i> .....   | 129 |
| Use of satellite data for studying the land surface-atmosphere interaction over<br>the African Sahel<br><i>Masato Shinoda, Hirokazu Iwashita, Akiyo Yatagai and Minoru Gamo</i> .....              | 137 |
| Monitoring the drying process using multi-temporal AVHRR data in 1990,<br>Huaihe River Basin, China<br><i>Atsushi Higuchi, Akihiko Kondoh, Shinkichi Kishi, Teruki Fukuzono and Li Jiren</i> ..... | 143 |
| Estimation of groundwater recharge on various sites in a tropical semiarid basin using a water<br>balance model in dry surface soil<br><i>Shinichi Onodera</i> .....                               | 149 |
| The present status, potential and limits of simulation models of desertification<br>in the world<br><i>Kaoru Tachiiri, Kazuhiko Takeuchi and Atsushi Tsunekawa</i> .....                           | 155 |
| Characteristics of streams in south part of Xinjiang, China<br><i>Changyuan Tang, Shizuo Shindo, Xing Li and Changming Liu</i> .....   | 163 |
| Regional salinity management based on shallow groundwater controlling:<br>a case study in the North China Plain<br><i>Changming Liu, Changyuan Tang and Shizuo Shindo</i> .....                    | 167 |
| Development and implementation of spectral crust index over dune sands<br><i>Arnon Karnieli</i> .....  | 173 |
| The effect of biogenic crusts on the spectral reflectance of the semi-arid regions<br><i>Arnon Karnieli</i> .....  | 181 |

|  |     |
|--|-----|
| Comparison of JERS-1 SAR and SPOT-2 panchromatic Data over a semi-arid zone<br>in Central Australia<br><i>Yoshinori Oguro and Kiyoshi Tsuchiya</i> .....                 | 187 |
| Vegetation indices of high and low vegetation density areas in southern part of<br>Taklimakan Desert<br><i>T. Ishiyama, Y.Nakajima, K. Kajiwara and K.Tsuchiya</i> ..... | 193 |
| Application of remote sensing for the natural resources: Management and desertification<br>assessment in arid and semi-arid regions<br><i>Hussein Harahsheh</i> .....    | 201 |
| Measurement of bidirectional reflectance of sand by a remote sensing simulator<br><i>Hiroshi Okayama and Jie Sun</i> .....   | 209 |
| Crude oil contamination of soil and groundwater in Kuwait<br><i>Hiroyuki Ii, Masato Kawaguchi, Masakazu Iwabuchi and Shinobu Yabu</i> .....                              | 217 |
| Seasonal monitoring of paddy cultivation by Landsat TM data in Chiba, Japan<br><i>L.Kithsiri Perera, Hiroyoshi Ishibashi and Ryutaro Tateishi</i> .....                  | 225 |
