Chiba University, Japan

The CEReS International Symposium on
Remote Sensing of the Atmosphere and Validation of Satellite Data

February 22 - 23, 2001, Chiba University, Japan

CONTENTS

Thursday 22

SESSION 1 Satellite Observation of Aerosol

1-1

(Invited Paper)

Derivation of fires from space and their climatic effect

Robert Frouin 1

1-2

Observation of Asian dusts during 1997-2000 by NOAA/AVHRR

*K. Kinoshita, R. Iwasaki, M. Koyamada, N. Iino, T. Yano, I. Uno, H. Amano, H. Yoshii,
and T. Masumizu* 7

1-3

Satellite imagery of ash clouds of the 2000 eruption of Miyake-jima Volcano

N. Iino, K. Kinoshita, M. Koyamada, S. Saitoh, K. Maeno, and C. Kanagaki
..... 13

SESSION 2 Atmospheric Correction Algorithms and Related Topics

2-1

A new model on surface-atmospheric coupled radiation for satellite remote sensing
application

Qiu Jinhuan 19

2-2

Aerosol optical parameter retrieval from satellite data

Y. Kimura, T. Izumiya, and Y. Kawata 23

2-3

(Invited Paper)

Atmospheric correction for satellite-borne and airborne spectrometry — effects of
aerosol type and pixel size

Daren Lu and Minzheng Duan 33

2-4

Atmospheric and topographic effects observed in shadowed pixels of satellite imagery

Yoshikazu Iikura 34

2-5

Atmospheric correction algorithm of visible and near-infrared satellite data using radiance components: pixel-by-pixel calculation of the adjacency effect

Mitsuo Minomura, Hiroaki Kuze, and Nobuo Takeuchi 39

2-6

Retrieval of aerosol optical thickness from NOAA/AVHRR data on the sea and land areas

K. Asakuma, S. Otsutsumi, M. Yabuki, T. Kubota, H. Kuze, and N. Takeuchi
..... 47

SESSION 3 Sea Surface Observations

3-1

SeaWiFS-derived ocean color and aerosol in the western equatorial Pacific Ocean: validation and comparison

K. Kozai, K. Ishida, M. Kusakari, M. Sakaki, and K. Nojima 51

3-2

Detection of Asian dust aerosol over land using SeaWiFS data

H. Fukushima, M. Miura, T. Takaoka, M. Toratani, and I. Uno 55

3-3

Validation of photosynthetically available radiation estimated from satellite data for primary productivity model

Ichio Asanuma, Kazuhiko Matsumoto, and Takeshi Kawano 62

SESSION 4 Cloud Observations I

4-1

(Invited Paper)

Key findings of Thailand cloud physics observation

Warawut Khantiyanan 68

4-2

Statistical relationship between ISCCP cloud type and relative humidity observed by radiosonde

Toshiro Inoue and Hirotaka Kamahori..... 69

4-3

Early validation results for the atmospheric correction algorithm of ASTER TIR

Hideyuki Tonooka and Frank Palluconi 74

Friday 23

SESSION 5 Ground Validation Methods

5-1

(Invited Paper)

Validation of satellite aerosol retrievals from AERONET ground-based measurements

Brent Holben, Lorraine Remer, Omar Torres, and Tom Zhao..... 78

5-2

Determination of aerosol optical properties from multi-wavelength lidar observations

H. Kinjo, M. Yabuki, H. Kuze, and N. Takeuchi 83

5-3

Airborne observations of Arctic tropospheric aerosols (ASTAR 2000) for the validation of satellite and ground-based remote sensing

Takashi Yamanouchi, Masataka Shiobara and Andreas Herber..... 93

5-4

Behavior of the tropospheric aerosols in the Arctic region measured by micro pulse lidar and sky-radiometer at Ny-Alesund, Svalbard, during the ASTAR2000 campaign

M. Yabuki, M. Shiobara, T. Yamanouchi, T. Shibata, H. Kuze, and N. Takeuchi
..... 97

SESSION 6 Cloud Observations II

6-1

Retrieval of the optical thickness of inhomogeneous clouds from multispectral satellite measurements

Nobuyuki Kikuchi, Hironobu Iwabuchi, and Tadahiro Hayasaka 101

6-2	Retrieval of aerosols and clouds on a global scale <i>Sonoyo Mukai, Itaru Sano, and Masayoshi Yasumoto</i>	106
-----	---	-----

6-3	Cloud observation by Visible/Infrared Imager and Microwave Radiometer <i>Hirohiko Masunaga, Takashi Y. Nakajima, Teruyuki Nakajima, Misako Kachi, Riko Oki, and Shunsuke Kuroda</i>	110
-----	--	-----

6-4	SKYNET validation network and its activities <i>T. Takamura, S. Kaneta, I. Okada, N. Takeuchi, G-Y Shi, and T. Nakajima</i>	114
-----	---	-----

SESSION 7 Aerosol and Ground Observations

7-1	(Invited Paper) Estimation of methane emission from wetland with sub-pixel level land cover characterization of remotely sensed data <i>Yoshifumi Yasuoka, Wataru Takeuchi, and Masayuki Tamura</i>	121
-----	--	-----

7-2	Relationship between NOAA/AVHRR-derived NDVI, rainfall and air temperature for diverse vegetation types in East Asia: I. NDVI vs. rainfall <i>Eleonora Runtunuwu, Akihiko Kondoh, Agung Budi Harto, Teguh Prayogo, and Shen Yanjun</i>	127
-----	--	-----

7-3	Relationship between NOAA/AVHRR-derived NDVI, rainfall and air temperature for diverse vegetation types in East Asia: II. NDVI vs. air temperature <i>Eleonora Runtunuwu, Akihiko Kondoh, Agung Budi Harto, Teguh Prayogo, and Shen Yanjun</i>	133
-----	--	-----

SESSION 8 Thermal Infrared Observations and Related Topics

8-1	Retrieval of precipitable water in a continental scale using split window data <i>M. Kuji, I. Okada, A. Uchiyama, and T. Takamura</i>	139
-----	--	-----

8-2

Cross and vicarious calibration experiments for Terra ASTER and Landsat-7
ETM+ in the thermal infrared region using hot ground targets

T. Matsunaga, T. Nonaka, Y. Sawabe, M. Moriyama, H. Tonooka, and H. Fukasawa
..... 143

8-3

The ground measurement and data processing method for the satellite derived land
surface temperature validation

Masao Moriyama, Koji Yano, and Yu Ito 148

S-1

Iterative correction of multiple scattering effects in Mie scattering lidar signals

Wahyu Widada, Mitsuo Minomura, Hiroaki Kuze and Nobuo Takeuchi 154
